

OverBuilt Standard Features

- **Diesel Engine** - Murphy safety shutdown gauges, electronic idle-up, cold weather package including head-bolt heater, heavy-duty air cleaner and heavy-duty radiator.
- **10 Foot Opening** - more than 2 foot higher than most other crushers on the market.
- **Advanced Oil Recovery System** - dual sludge traps, water separating valve and 400 gallon "on-board" waste oil storage tank.
- **Remote Control** - two automatic crushing cycles, individual up and down cylinder control switches, and Emergency Stop.
- **Safety Locks** can be placed to prevent the deck from falling.
- **Lockable Cabinet For Valves and Engine Controls** - also offers additional storage.
- **Magnetic Marker Lights** next to the crushing chamber - easily moved or removed while crushing.
- **400 Gallon Fuel Tank** - optional auxiliary 12-Volt fuel transfer pump.

Four car crushers in final assembly at our manufacturing facility.

Specifications & Dimensions

Crusher Opening:	Hydraulic Cylinders:	Overall:
Height (Raised)10'	Bore10"	Weight59,500 lbs
Height (Lowered)2'	Rod4"	Length43'
Width.....7'6"	Travel96"	Travel Height.....13'5"
Length20'1"	Pressure2500 psi	Ground Clearance.....16"
Lid Movement.....8'	Crushing Force159 Tons

OverBuilt Main Control Cabinet

- | | |
|------------------------------------|-------------------------------------|
| 1. Remote Control Receiver | 5. Landing Gear Valve |
| 2. Remote Control Transmitter | 6. Filter Regulator with Auto Drain |
| 3. Main Control Valves | 7. Automatic Oiler |
| 4. Engine Gauges & Murphy Controls | 8. 100'x1/2" Retractable Hose Reel |

OverBuilt Options

- **High-Speed Oil Bypass System** - Patented Control System featuring 2.5" bypass valves and cylinder ports.
- **Hydraulic Landing Gear** with large pads
- **Air Compressor** - complete with 120 gallon reservoir, filter, regulator, automatic oiler, and 100' of half-inch hose on a spring retractable reel.
- **Auxiliary Fuel Pump** - lockable cabinet with a 12 volt fuel pump and hose lets you fuel your loader from the crusher's huge 400-gallon fuel tank.
- **Optional Open/Close Height** - 9' Opening, 1' Close.
