INNOVATIVE DESIGN

When ShearCore was still just an idea, we knew there was a non-negotiable point in the business plan. We had to have Ross Christenson. His reputation for sophisticated, yet simple designs, decades of experience and logical, innovative engineering are things we couldn't do without.

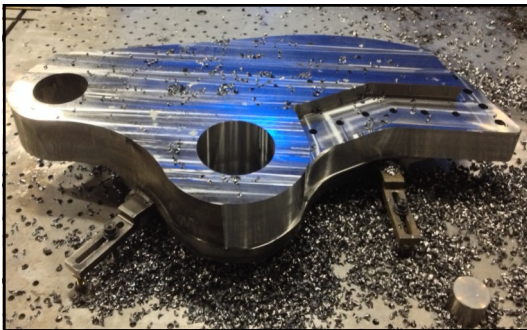

With Ross on board, and a clean slate, ShearCore is now manufacturing Fortress—a shear that is sophisticated, structurally sound and has a reduced number of parts due to its innovative design.

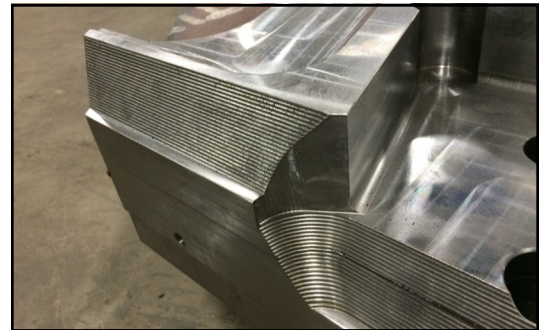

MANUFACTURING EXCELLENCE

When it comes to manufacturing mobile shears, nothing matters more than experience, and no one has more than Jim Campbell. When you combine Jim’s knowledge and passion with state of the art machining centers, a new factory and a hand picked crew of welders, machinists and assemblers, you have the best the industry can offer. This is Fortress.

Designed for manufacturability, using state of the art machining centers, and having the best manufacturing team in the industry ensures that Fortress is truly manufactured with excellence.

Machined upper jaw and machined weld groove provide a clean and perfect weld joint and landing

REGIONAL BUSINESS MANAGERS

Chris Fodor—5 years in the industry—“It means a lot to work for great people with respect and integrity who empower you to do your job and stand behind you. It’s even better when the company builds a product that you can absolutely be proud to represent.” (513) 257-9038

Jason Johnson
Inside Sales Manager
(601) 675-CORE

Ian Lewandowski—12 years in the industry—“The scrap industry is in my blood. I’ve been lucky enough to represent the highest quality products created by amazing engineers & manufacturers, combined with a ridiculous commitment to service & support & work on super fun sales teams. Representing ShearCore is like coming home.” (218) 576-5224

Paul Houseman
Service Manager
(601) 675-CORE

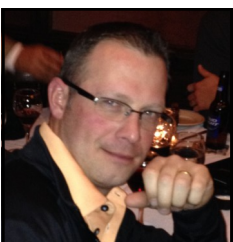

Kenny Bradshaw—13 years in the industry—“I came out of retirement and joined ShearCore because of the product lines we offer & the spirit, drive & integrity of the people in the organization. So, if you see a cloud of dust blow thru the yard & you get a real strong whiff of mothballs, look close, maybe ol’ Kenny is stopping by to say howdy.” (218) 343-6803

Terry Sturgell—9 years in the industry—“I have had the opportunity to meet and work with plenty of hard working, honest people and am proud to be part of this industry. Working with ShearCore gives me an opportunity to work with a close knit team that has the same core values of honor and integrity that I hold so dearly.” (772) 418-4844

Cheri Boreen
Parts Specialist
(601) 675-CORE

Tommy Jansen—9 years in the industry—“This industry is built on relationships and lifetime friendships, most importantly. Let’s cut to the heart of it, surrounding yourself with a great and innovative product along with a group of people that feel as though they are family is every sales person’s dream.” (641) 638-0793
