

The Enviro-Rack

Auto Fluid Removal & Dismantling Station

ALL RACKS ARE
EQUIPPED WITH A GRATED
CATWALK PLUS 609 GALLONS
OF CONTAINMENT IS
BUILT INTO THE FLOOR!

The Enviro Rack is the first and only portable fully self-contained fluid removal system on the market.

We offer all steel tanks along with a grated catwalk for operator safety. Underneath the catwalk is a 249 gallon catch pan and also a 360 gallon tank to catch any spills. No other system on the market comes close to the Enviro Rack. This unit meets EPA and State level regulations concerning fluid removal. The Enviro Rack is totally air operated. There are no gasoline or electric motors that could create a spark. The Enviro Rack is a safe system that offers complete fluid removal in less than 5 minutes.

The Enviro-Rack pictured is equipped with a gasoline separation system, antifreeze separation system, and fold out catwalks.

Options:

- Gasoline separation system
- Antifreeze separation system
- Hook and rails suitable for roll-off container system
