

THE 'All in One'™ with POWER STAND Depollution System

Optional Quality Control Upgrade

Innovation is about simplicity of design, why add a vehicle stand to a Depollution Station when you can have it "All-In -One" Synonymous with practicality, Green Car has uniquely manufactured a super strong high grade 8mm steel walled depollution station to double as a vehicle stand saving space and money.

The fork arms have been extended in length and are adjustable, to be able to cope with cars as well as light commercials

The system includes 5 or 6 powerful 1" double diaphragm pumps for Petrol, Diesel, Oil, Coolant/Screenwash and Brakefluid along with pick up tooling all easily to hand.

Complete with fast and powerful fuel suction via our fuel extraction tank drill and **4.5 Ton SWL** vehicle stand this system is a must have.

Consists of:	Optional:
5 or 6 Pump Cabinet Stand (Petrol, Diesel, Brake Fluid, Waste Oil, Coolant/Screenwash combined)	Drip Tray
Petrol / Diesel Extraction Tank drill & rubber drainage funnels (available on swing arm or Mobile stand)	Compressor
Pick Up tools (Coolant, Screenwash, Brake Fluid, Waste Oil)	Storage Tanks
Vehicle stand 4500Kg safe working load	Upgrade to Quality Control System
Technical Requirements:	Air Requirements: Air Compressor Required
	Suction = Up to 30L / minute
	Working Height - 1900mm
